Summary

Data Analytics fresher with a Computer Engineering background and hands-on experience in analyzing raw data to derive business insights. Strong in SQL Server, Power BI, and Microsoft Excel, with experience in building interactive dashboards and performing ETL using SQL and Power Query. Skilled in transforming complex datasets into actionable insights through data analysis and visualization.

Skills

- Databases & SQL:** SQL Server, Joins, Aggregations, Subqueries, Window Functions, CASE Statements
- Data Visualization:** Power BI (DAX, Data Modeling), KPI Dashboards, Slicers, Interactive Visuals
- Spreadsheets:** Microsoft Excel (Pivot Tables, Power Query, XLOOKUP, INDEX-MATCH, Charts)
- Programming:** Python (Basic - Pandas, NumPy, Matplotlib), Jupyter Notebook, GitHub
- Soft Skills:** Analytical thinking, problem-solving, attention to detail, data-driven communication

Projects

- HR Analytics Dashboard (SQL Server & Power BI)** [\[View Project\]](#)
- Analyzed employee attrition data using SQL Server to identify workforce trends and key HR performance metrics.
 - Engineered derived fields (age groups, attrition flags) using SQL to enable granular multi-dimensional reporting.
 - Developed an interactive Power BI dashboard visualizing KPIs, department-wise attrition, and job satisfaction insights.
- Blinkit Sales Analysis (SQL & Power BI)** [\[View Project\]](#)
- Conducted end-to-end sales analysis on Blinkit grocery data using SQL Server and Power BI.
 - Cleaned and processed transactional data to calculate business metrics: total sales, average revenue, and item ratings.
 - Visualized sales performance across product types, outlet sizes, and locations using interactive Power BI visuals.
- Bank Loan Analytics Dashboard (SQL & Power BI)** [\[View Project\]](#)
- Evaluated loan performance and repayment behavior using SQL Server to distinguish “Good” vs “Bad” loan status.
 - Calculated complex KPIs including total applications, funded amount, and DTI with MTD and MoM analysis.
 - Built an interactive Power BI dashboard featuring monthly trends, state-wise distribution, and drill-through details.
- Advanced Excel Sales Dashboard** [\[View Project\]](#)
- Built an Excel dashboard to analyze sales performance, revenue trends, and key business KPIs.
 - Cleaned and analyzed raw sales data using Pivot Tables, charts, slicers, and Excel formulas (XLOOKUP, INDEX-MATCH).
 - Designed interactive visuals to track total sales, profit, monthly trends, top products, and regional performance.

Education

- B.E. in Computer Engineering** 2021–2025
Konkan Gyanpeeth College of Engineering, Karjat (University of Mumbai)
- HSC (11th–12th)** 2019–2021
Kamaladevi College of Arts, Commerce & Science

Certifications

- Data Science Program – Microsoft Certificate of Achievement**
Issued by Microsoft Partner: iFuture Technologies Pvt. Ltd. | Final Grade: Excellent (80%) [\[Certificate\]](#)
- Deloitte Australia Data Analytics Job Simulation (Forage)** [\[Certificate\]](#)
- SQL (Intermediate) — HackerRank** [\[Certificate\]](#)
- SQL (Basic) — HackerRank** [\[Certificate\]](#)
